

## **English speakers!**

**We invite you to our experienced Montessori community with committed, passionate educators and craftsmen.**

Every year, groups of about ten students ages 12-15 from the Montessori School Dietramszell - and other Montessori schools - spend several weeks of the school year at the "Erdkinderhaus" with their teachers. There, teenagers learn to make their own decisions and to take responsibility for themselves and others.

In this extracurricular learning place kids can try things out in the community and learn from life. The place is beautiful – the animals, the landscape and the challenges of building, planting, harvesting, sewing and cooking together makes this place unique.

We are looking for English native speakers or English-speaking Workawayers from Spanish speaking countries who would like to spend time here with us in order to facilitate a language learning component.

We would like to welcome English native speakers or English speaking Workawayers from Spain or Spanish speaking countries.

You will spend time establishing close contacts with the children, who are spending 6 weeks of their school time in groups at our Erdkinderhaus (10 kids per stay). So we'd like you to be present for at least 4 to 6 weeks. In this time, you can decide if you want to put your effort into social projects with the kids in the 7th and 8th grade of our Montessori school in Dietramszell, or you can work take care of the animals and the farm, helping to encourage the kids to work in the house or to repair things. Or if you like to do gardening, harvesting and being creative – it's up to you. But you should be enthusiastic about nature, crafting or educational interest!

During the week in the Erdkinderhaus you'll have your own room but will share a bathroom with the others. On the weekend, we provide our Workawayers with accommodation in a private household; usually the families of our students from Dietramszell who can offer you a room in their house at the weekend. Meals are included.

You'll have the unique opportunity to help shape one of the few Montessori off-premises learning locations, and, if you prefer, to be a part of the school classes as well. Our 7th and 8th grades let you immerse yourself in Montessori pedagogy. In addition to a beautiful farm with animals, a farmhouse with a spinning wheel, workshop, stables, tractor and permaculture garden, we promise you wonderful moments with the kids in this beautiful natural setting. There is a waterfall 100 meters away, and lake Chiemsee can be reached by bike in an hour. You learn to motivate a group, help the kids to cook, harvest, repair, build and go on wonderful trips with them.

Munich is 1 hour away by bus or car. Austria is 10 Minutes away and the area offers hiking, climbing, biking, skiing and all kinds of outdoors activities. The famous Kampenwand is just around the corner. And Salzburg ist 1:30 hours away.

We invite you to our experienced Montessori community with committed passionate educators and craftsmen.

You will have a say in the design of your work area and your tasks, and we look forward to coordinate this with you. In return, we invite you to make your initiative available to the most important asset we have: our next generation, who are alert, attentive and together protect the resources of this earth.
